

### Multi Pouch

Vres MULTI POUCH

An ideal bag that allows you to conveniently store all your rope and rescue gear in separate, clear faced pouches ready for easy identification and quick deployment. Made from tough 1200 denier nylon. Each Multi Pouch features integral carry handle and back pack straps. A favourite with Emergency Services personnel for many years.

### Ponderosa Bag

Vbs POND

A lightweight compact bag that provides room to carry your essential rope and rescue gear. Conveniently rolls and folds up for compact storage. Back straps allow for easy transportation.

### Vertical Rope Bag

Vbs HIVIS

The Vertical Rope Bag keeps your rope conveniently stowed, ready for transportation and quick deployment. The high visibility style (as shown) comes with a carry handle, backpack straps, pull tight throat closure and is made from 1000 denier vinyl. Available in 50 metre, 100 metre, and 200 metre sizes.

The more economical version (Vbs ROP BAG) is also available in 50 metre, 100 metre, 150 metre, and 200 metre sizes and is made from 1000 denier cordura. This version comes complete with a single shoulder strap.

### Expedition II Duffel Bag

Vbs EXP 2 HD

A sizeable bag with a 75 litre capacity that is made tough to carry all of your rescue, industrial or climbing gear. Made from 1200 denier nylon with integral shoulder and carry straps. A favourite from our outdoor range.

### All Purpose Grab Bag

Vbi ENCARRY

This multi purpose bag is ideal and large enough for storing your harness and all related gear to make up your own kit. A handy daisy chain is conveniently located inside the zipper opening for convenient storage of carabiners and other gear. Available in maroon, black, red and blue.
