

Bionic™ Pulsafe® eyewear

The Bionic™ is the simplest and most comfortable faceshield designed to handle any challenge.

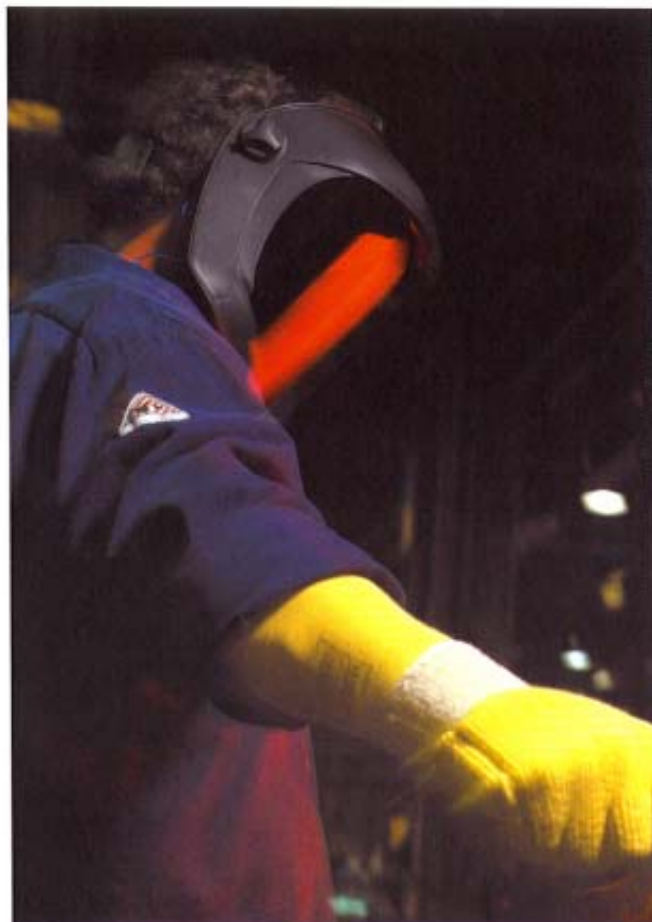

We asked faceshield users what they wanted in their face protection, and then designed the Bionic face shield around their feedback.

With nothing left to chance, the Bionic face shield offers superior protection with extended top of head and chin protection. The large high quality visor offers maximum visibility, are easy to replace and are available in a range of different tints including shade 3, 5, clear uncoated and clear coated.

On the job protection only works when worn, and it will only be worn if it is 100% comfortable. Through it's many adjustable features, the Bionic faceshield gives the most comfortable fit with an incredible 2784 possible wearer positions! Extra soft cushioning on all parts of the shield that are in contact with the head, and a breathable extra soft sweatband, make the Pulsafe Bionic an integrated solution for maximum protection, comfort and adjustability.

Applications:

Sanding, grinding, woodworking, welding, trimming, flash grinding.

VISION SHIELD

This Vision Shield head gear with brow guard eliminates forehead injury, while the polycarbonate visor protects from foreign particles, chemical splash, dust and high impact hazards. Also available with Anti-Fog lens.

EDGED VISION SHIELD

Vision Shield head gear teaming brow guard with aluminium edged face shield. Incorporating most of the features of the VS30, the VS50 is priced to suit the economically minded.

MESH VISION SHIELD

The wire mesh visor protects from flying branches, woodchips and other hazards in a specialized outdoor environment.

AUTO WELDING HELMET 9-13

This solar powered, LIGHT REACTIVE WELDING HELMET offers shades 9-13 with an automatic light adjustment and adjustable sensitivity. The slim, lightweight design with full face coverage provides maximum protection.
