BD96AS PRESSURE DEMAND BREATHING APPARATUS

- Adjustable cylinder retainer strap for cylinders up to 9 litres
- Harness made of non-flammable Nomex
- Optional extended warning signal line locates warning whistle near user's ear
- Optional MSA Quick-Fill system
- Available in single & twin cylinder configuration
- Cylinders sold separately, see opposite
- **BD96 Backplate 2nd Mask Attachment, BD96 Demand Valve, 3SPS Face Mask - Part No.228969**
- **BD96 Backplate 2nd Mask Attachment, BD96 Demand Valve, Ultra Elite Mask - Part No. 227545**

BD COMPACT BREATHING APPARATUS

- Reliable and economical air supply system
- Working and Rescue breathing apparatus
- Cylinders sold separately, see pg 33
- **Part No. 227931 BD Compact 3SPS Mask less Cylinder**
- **Part No. 227935 BD Compact Ultra Elite Mask less Cylinder**

→ RESPIRATORS BREATHING APPARATUS

AIRMAXX SL BREATHING APPARATUS

- Single Line air management system
- The SL supplies the demand valve, gauge, warning signal, second connection through one single visible hose. See picture right.
- New First Stage pressure reducer requiring little maintenance
- You can order a new SL or upgrade your existing MSA BA
- Three position adjustable back plate
- Harness of non-flammable modacrylic aramide optional:
Q = Quickfill
- **Part No. 7624373** AirMaXX SL Ultra Elite PS Maxx Mask, AutoMaxx Demand Valve Rubber hose

Hose-in-Hose Technology

AIRMAXX MM BREATHING APPARATUS

- New First Stage pressure reducer requiring little maintenance
- Has the traditional medium pressure hoses.
- Three position adjustable back plate
- Harness of non-flammable modacrylic aramide optional:
Z = Second medium pressure connection
S = Warning signal extension
Q = Quickfill
- **Part No. 762018** AirMaXX Backplate, Ultra Elite Face Mask, AutoMaxx Demand Valve

CYLINDERS (SOLD SEPARATELY)

223358	3 litre 300 bar	Fully wrapped carbon fibre cylinder + Valve Duration: 22 mins Approximate Weight Full 3.4 kg
228196	4.3 litre 300 bar	Fully wrapped carbon fibre cylinder + Valve Duration: 31 mins Approximate Weight Full 6.4 kg
228315	6 litre 300 bar	Steel Cylinder + Valve Duration: 45 mins Approximate Weight Full 10.4 kg
222378	9 litre 207 bar	Fully wrapped 3S Glass cylinder + Valve Duration: 46 mins Approximate Weight Full 10.4 kg
227921	6.8 litre 300 bar	Fully wrapped carbon fibre cylinder + Valve Duration: 51 mins Approximate Weight Full 6.9 kg
229796	9 litre 300 bar	Fully wrapped carbon fibre cylinder + Valve Duration: 67 mins Approximate Weight Full 8.1 kg
765008	9 litre 200 bar	Fully wrapped carbon fibre cylinder + Valve Duration: 46 mins Approximate Weight Full 6.7 kg Available April 2006.

AIRLINE APPARATUS

CONFLOW AIRLINE RESPIRATOR

- Slight positive pressure of air inside facepiece preventing contaminants seeping through
- Complete respirator assembly Ultravue full facepiece
- Breathing hose support belt with quick-disconnect assembly
- Ideal for non-immediately dangerous to life & health environments
- Part No. 764964

CAVAIR LIGHT DUTY AIRLINE BREATHING APPARATUS

- Light duty compressed airline equipment
- Most versatile constant flow device from MSA
- Adjustable air flow regulator & disposable lens cover
- Part No. 3050750
