When an accident happens, we're there to save your skin.

In the blink of an eye... that's all it takes for a dangerous chemical to splash into the eyes or burn the body. Without the proper safety shower or eyewash station on site, you or your workers could suffer severe trauma or permanent impairment. Pratt Safety Systems can ensure that your workplace is prepared to deal with unexpected industrial accidents involving harmful substances or flames.

For more than 30 years, Pratt Safety Systems has been on the forefront of providing Australasian workplaces with safety shower systems and eyewash units that are innovative and tailored to meet the diverse needs of its customers. A member of the Tyco group of companies, Pratt is committed to making worksites safe and secure worldwide with products that are durable and dependable.

Pratt safety showers are constructed using high quality stainless steel including the stand, shower arm, pull rod, foot pedal, floor plate and bowl. The advanced conical-action shower head is designed to deliver large volumes of water gently – ensuring complete decontamination without damaging injured skin.

Pratt's comprehensive eye/face wash units are the ultimate in water first aid against chemical or burn injuries.

These sturdy units have revolutionary nozzle designs that produce a continuous cascade of soft water to thoroughly decontaminate the eyes and face. Pratt safety showers and eye/face wash units fully comply with Australian, New Zealand and American safety standards and are manufactured to international quality standard ISO 9002.

So whatever the requirement, whatever the industry, Pratt Safety Systems has the solution to your workplace safety issues. With our wide range of safety showers, and eye/face wash, portable and combination units, Pratt can provide you with strong and reliable equipment to fit any workplace and budget. With Pratt, you have peace-of-mind knowing that you're providing your workforce with the best defence in injury management.

Portable Units

With Pratt's Portable Units, you can have a safe workplace no matter where you are. These portable first aid water treatments are ideal for worksites without plumbing capabilities and are essential for fire and emergency teams, drivers carrying dangerous substances, and those working in remote places in mining, agriculture and construction.

Gravity Fed Portable Eyewash

SE4050 open

- > Self-contained unit provides 15-minutes of decontaminating water flow
- > 53 litres capacity
- > Strong polyethylene construction
- > Retractable tray protects against airborne contaminants

SE4050 closed

- > Pinch valve ensures positive water flow within one second of activation
- > Bright green colour makes for easy identification
- > Meets ANSI Standard Z358.1

Portable Eye and Body Washes

SE50P

SE590A

SE50P 9 litre capacity

SE590A 45 litre capacity, with dual nozzle eyewash and drench hose

SE592A 45 litre capacity, with drench hose

SE597 16 litre capacity, with drench hose

- > Soft aerated water
- > Compressed air is supplied via tyre-style valve
- > Range of sizes for most applications

Water Additive - SE4764

- > Add to eyewash to protect against bacteria, fungus, algae, other micro-organisms
- > One bottle preserves between 23-75 litres of potable water for up to four months
- > One complimentary bottle is supplied with each SE4050 eyewash

Multi - Spray Units

In the case of contamination with burning materials, acid or caustic liquid, or toxic and radioactive particles, Pratt Multi-Spray Units provide fast first aid treatment. These life saving units are fitted with 16 spray shower heads and are constructed of high quality stainless steel.

Eyewashes and Eye/Face Wash Units

Pratt's Eyewashes and Eye/Face Wash units are the ultimate in water first aid. With its innovative nozzle designs, these units dispense a soft curtain of water to rapidly douse the entire face and soothingly wash away contaminants. These stainless steel units are available in the Aerostream® aerated water version or the Softstream® non-aerated water model.

Aerostream® Eyewash

Dual design aerated eyewash for applications which pose a hazard to the eyes but not the face, such as dust, airborne particles and mild chemicals.

- SE546 With bowl, hand and foot operated
- SE545 With bowl, hand operated
- SE575 Wall mounted, no bowl, hand operated
- SE515 Wall mounted with bowl, hand and foot operated
- SE505 Wall mounted with bowl, hand operated

Aerostream® Eye/Face Wash

An advanced six-nozzle design that delivers a gentle cascade of aerated water to rinse away contaminants without further damaging delicate eye and skin tissue.

SE480

SE400
