FIBREGLASS SIGNS

FIBREGLASS SIGNS (B-120)

Signs So Durable, They're Guaranteed. Signs made from B-120 fibreglass out-perform all other sign materials. And they're guaranteed not to chip, fade, rust, shatter or peel for 15 years. Sign message is embedded in plastic, protected on both sides from weathering and abrasion. UV-resistant graphics stay bright and legible without fading, even outdoors. Special materials filter out harmful ultraviolet rays that can fade the graphics on other sign materials.
